

Ryan Mansfield

Having proven leadership and training skills in multiple industries with a passion for growth and development led to joining Le Wagon, a world-class coding Bootcamp and becoming an **Agile Full Stack Developer**. Continuing to hone skills and gain knowledge of new tech, while writing code that follows best practices. I am looking to contribute to a high-growth, proactive tech company. I am willing to relocate for the right opportunity.

PROFESSIONAL EXPERIENCE

Freelance Web Developer

January 2020 - Current

Cinemakers Task Manager – Lead Developer

MVP Task Manager App built using Rails and React/Redux for movie production. Developed from wireframe and client specs and deployed to Heroku.

Fresh Pick Coffee – UX/UI Design

Designed and built Wix page with SEO optimization.

Pursuit Stream – Front-End Developer

Front end customization of Uscreen site with JavaScript and CSS.

Senior Teacher Manager

April 2017 - December 2018

Shane English School, Kunming, China

Trained multi-national team resulting in increased student retention numbers.

Restaurant Manager

October 2014 - October 2016

Tommy Bahama, Newport Beach, CA

Analyzed successes, and shortcomings by managing from the P&L and using problem-solving to implement plans to achieve business goals.

WEB DEVELOPMENT PROJECTS

<https://www.ryanmansfield.io>

Night Roulette <http://night-roulette.com>

Mobile Web App built using Rails and JS, within a team of 4 in 2-weeks aimed at providing local experiences to travelers. This project challenged me to be an agile developer in order to push to production a minimum viable product.

Fauxtography <https://fauxtography.herokuapp.com>

Marketplace and Airbnb clone built using HTML, CSS, JavaScript, Ruby on Rails in a team of 4 during a 1-week sprint. This project gave me experience developing a project in a team dynamic using GitHub versioning and Trello.

Multi-Channel Messaging App <https://chat-rails-redux.herokuapp.com>

Built using Rails and React/ Redux for multi-channel messaging and updated in real time with Action Cable, I learned how to integrate a React App within a Rails App and honed my knowledge of building APIs.
