Ryan Mansfield

Having proven leadership skills in multiple industries, I decided to join **Le Wagon,** a world-class coding Bootcamp, to learn **Ruby on Rails** and **JavaScript**. I am now looking to contribute to, and further my full stack engineering career within a high-growth, proactive tech company. I am willing to relocate for the right opportunity.

WEB DEVELOPMENT PROJECTS

Portfolio Page http://www.ryanmansfield.io

Full Portfolio page built using HTML, CSS, and Bootstrap.

Multi-Channel Messaging App https://chat-rails-redux.herokuapp.com

Built using Rails and React/ Redux for multi-channel messaging, I learned how to integrate a React App within a Rails App and honed my knowledge of building APIs.

Night Roulette https://night-roulette.com

Prototype Mobile Web App built using Rails and JS, within a team of 4 during a 2-week sprint aimed at providing local experiences to travelers. This project showed the importance of being an agile developer to complete an MVP.

Fauxtography http://fauxtography.herokuapp.com

Market place and Airbnb clone built using HTML, CSS, JavaScript, Ruby on Rails in a team of 4 during a 1-week sprint. This project gave me experience developing a project in a team dynamic using Git Hub versioning and Trello.

Mister Cocktail https://mister-ryan-cocktail.herokuapp.com/cocktails

Cocktail Recipe APP built using Ruby on Rails, HTML, and CSS strengthening my knowledge of MVC and CRUD and learning how to deploy to Heroku.
